The screenshot shows a web-based design system interface for 'TAGUS'. On the left, a sidebar lists 'ATOMS' and 'COMPONENTS' categories, with 'Business Pickers' selected under 'COMPONENTS'. It includes a sub-section for 'Guests Picker' which details its purpose for accommodation booking and provides a reference link to 'Datapicker documentation'. Below this is a large screenshot of a 'Guests Picker' modal window. The modal has a title bar 'Guests' with a dropdown menu showing '2 adults, 2 children'. It contains two numeric stepper controls: one for 'Adults' set to '2' and one for 'Children' set to '2'. Each stepper has a minus button, a plus button, and a dropdown menu showing the current value. At the bottom of the stepper are two dropdown menus labeled 'Child 1 age' and 'Child 2 age', both currently set to '6'.
